Market Highlights

- Market Overview The industrial market vacancy rate reported a meaningful decline during the first quarter of 2013, falling to 17.2 percent. Compared to the prior quarter (Q4 2012), the vacancy rate is down 50 basis points (0.5 percent), while compared to a year ago (Q1 2012), it is down 70 basis points (0.7 percent). The latest period represents the first substantial year—over—year decline in vacancy rate since the first quarter of 2006.
- Demand The sector reported approximately 690,600 square feet of positive net absorption during the first quarter of the year, the highest amount since the fourth quarter of 2008. The increased demand is largely attributable to a lease signed by Hand Air Express for 303,200 square feet at 2880 North Lamb Boulevard. Other major lease transactions included the 133,400 square feet in the north by Derse and 80,700 square feet by Mercy, Inc. in the southwest.
- Inventory During the first quarter of 2013, approximately 160,000 square feet completed construction, bringing total inventory to 105.4 million square feet. Approximately 115,000 square feet was sourced to new facilities for Old Dominion Freight Lines and Knight Transportation in the north, while Bon Breads Baking Company on the northeast corner of Teco Avenue and Decatur Boulevard comprised the other 45,000 square feet.
- Future Supply Four projects totaling 910,000 square feet remain actively under construction throughout the valley. The majority (730,000 square feet) is located in the southwest, mainly attributable

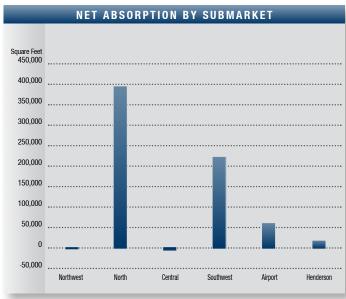

- to the 600,000—square—foot Switch SuperNap8. The new headquarters for SHFL Entertainment comprises the remaining 130,000 square feet. In addition, the 110,000—square—foot facility for Heritage Foods is under construction in the north submarket at the southeast corner of Cheyenne Avenue and Simmons Street, while another 70,000 square feet is sourced to VadaTech on the southeast corner of Gibson Road and American Pacific Drive in Henderson.
- Economic Considerations The national economic recovery continued to slow in recent months while local growth has been modest and measured. National real gross domestic product (GDP) for the fourth quarter of 2012 (latest available) reported an annual growth rate of just 0.4 percent. Consumer confidence fell to 59.7 in March of 2013, down 14.1 percent compared to a year ago, while expectations declined an even more dramatic 26.2 percent to 60.9. In addition, while the national unemployment rate fell to 7.6 percent in March, just 88,000 jobs were added to the market. In Las Vegas, employment expanded by 2.0 percent year–over–year in February, and the local unemployment rate dropped significantly to 9.8 percent (down from 12.1 percent).
- Looking Forward While the first quarter's positive net absorption profile is not necessarily an indication of future outcomes, anecdotal reports suggest a renewed optimism is unfolding. Additionally, as average asking rates remained relatively flat for the fifth consecutive quarter, investor interest appears to be picking up.
