HIGHLIGHTS

- Market Overview The Las Vegas office market reported a vacancy rate of 23.6 percent at the end of the first quarter of 2015, representing a decline of 10 basis points (0.1 percentage point) from the prior quarter (Q4 2014). Compared to a year ago (Q1 2014), the office market vacancy rate has declined 110 basis points (1.1 percentage points), and it is the lowest it has been in four years.
- **Demand** The office market reported approximately 113,700 SF of positive net absorption in the first quarter, which compared favorably to the negative 83,800 SF of net absorption witnessed in the same quarter a year ago. During the quarter, the southwest submarket reported the strongest net absorption of positive 98,300 SF, which was partially attributable to pre-leased space in the third phase of Corporate Center at the Curve that completed during the quarter. The west submarket followed with roughly 85,400 SF of net move-ins, primarily due to demand for space at One Summerlin.
- Inventory Two office projects completed construction during the first quarter, adding 69,000 SF to the market and bringing total inventory to 52.9 million SF. The 57,700 SF third phase of Corporate Center at the Curve completed construction on the northeast corner of Interstate-215 and Sunset Road. The partially preleased phase includes The ENT Surgery Center of Las Vegas, which is 12,000 SF. The 11,300 SF first phase of office space in Cadence in Henderson also completed

construction during the quarter. A portion of the building will be used for the Cadence Home Finding Center.

- Future Supply At the end of the first quarter, there was 232,700 SF actively under development throughout the valley. Projects include the 129,000 SF Federal Justice Tower, the 68,000 SF second phase of Tivoli Village at Queensridge and the 35,700 SF third phase of The Park at Spanish Ridge.
- Economic Considerations In February 2015 (latest available data), the Las Vegas MSA reported annual job growth of 27,500 positions. The most notable gains were witnessed by the leisure and hospitality sector (+10,600 jobs) and the construction sector (+5,500 jobs). Other sectors reporting substantial year-over-year growth included professional and business services (+4,000 jobs), retail trade (+3,800 jobs) and education and health services (+1,700 jobs). Consumer spending continues to report dramatic gains as well. For the 12 months ending January 2015 (latest available data), taxable retail sales reached an all-time high of \$36.7 billion, which represents an increase of 9.3 percent from the prior 12-month period.
- **Overall** The Las Vegas office market has reported positive net absorption for four consecutive quarters, and in the past year, the sector has witnessed nearly 1.0 million SF of net move-ins. While it will be some time before office market vacancies reach pre-recession levels, it is likely the vacancy rate will continue to decline throughout 2015.

FORECAST

- **Employment** Employment is expected to continue to report year-over-year gains, with significant improvements in the leisure and hospitality, construction and retail trade sectors.
- Construction A limited number of new office projects are expected to hit the market in the coming year.
- **Vacancy** The office market vacancy rate is expected to decline in 2015 as demand for professional office space follows employment growth within the sector.

ANNUAL INVENTORY VS. VACANCY RATE

PRODUCT TYPE

Class A

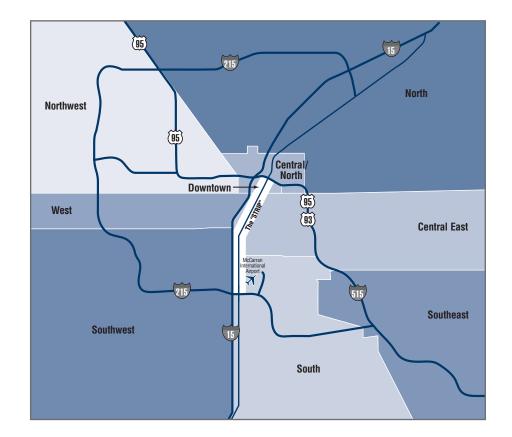

Most prestigious buildings competing for premier office users with rents above average for the area. Buildings have high-quality standard finishes, state-of-the-art systems, exceptional accessibility and a definite market presence.

Class B

Buildings competing for a wide range of users with rents in the average range for the area. Building finishes are fair to good for the area, and systems are adequate. However, Class B buildings cannot compete with Class A buildings of the same price.

Class C

Buildings competing for tenants requiring functional space at rents below the area average.
