#### HIGHLIGHTS

- Tight Market The San Diego retail market did not move significantly in the third quarter. The vacancy rate for the market remained practically unchanged, and net absorption was slightly positive. The bright point of the quarter was transaction volume which was up versus the prior quarter.
- Construction Despite the continued decrease in the county's vacancy rate for retail property, construction remains at very low levels. Much of the current retail construction in San Diego is renovation work, including the \$300 million transformation of Westfield Plaza Camino Real from an indoor mall into an open air mall, along with the ongoing remodel of Westfield UTC and other projects around the county. The low level of construction should alleviate upward pressure on vacancy and downward pressure on lease rates.
- Vacancy Direct/sublease space (unoccupied) finished the quarter at 4.30%, up slightly from the previous quarter's rate of 4.25% and just eleven basis points of difference from the rate of 2014's third quarter.
- Availability Direct/sublease space being marketed was 5.74% at the end of the third quarter, up 20 basis points from the previous quarter. The shopping center segment of San Diego's retail market, which includes strip centers, neighborhood centers, and community centers posted the highest availability rate at 8.15%, while malls were the lowest with a 1.16% availability rate.
- Lease Rates The average asking triple-net lease rate per month per square foot in San Diego County was \$1.75 a decrease from the second quarter's rate of \$1.86. The highest average asking rates in the market were in the Central North submarket, at \$2.94 per square foot per month.

- Absorption The San Diego retail market posted 106,830 square feet of positive net absorption in the third quarter, for a total of 5.2 million square feet of positive net absorption over the past six years.
- Transaction Activity The combined amount of retail property sold and leased in the third quarter was 2.9 million square feet, an increase of 33.15% over the 2014 third quarter's tally of 2.2 million square feet. This statistic can have some lag time in being reported, so look for this quarter's figures to end up somewhat higher in the next report.
- County was 5.1% in August 2015, down from a revised 5.4% in August 2015 and below the year-ago estimate of 6.6%. This compares with an unadjusted unemployment rate of 6.1% for California and 5.2% for the nation during the same period. According to the State of California Employment Development Department, San Diego County gained 42,400 payroll jobs from August 2014 and August 2015, including 11,500 from professional and business services, and 8,000 from education and health services, 5,600 from both transportation and utilities, and leisure and hospitality. Only two minor sectors recorded year-over job losses totaling 900 jobs.
- Overall The San Diego retail market remains tight, with current rates just above 4.0%. Positive absorption trends endure, and overall the market has stabilized. Thus far in the recovery, quality properties have been able to keep overall asking rental rates stable, but demand remains soft for marginal product. Much like the market's unemployment rate, San Diego retail property has stronger fundamentals than the overall national average. But because of the limited supply pipeline the market remains tight.

#### **FORECAST**

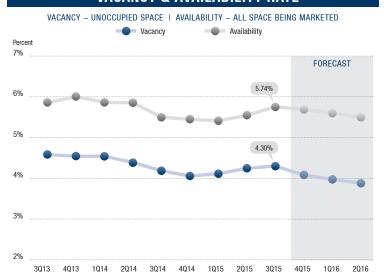

- Construction We anticipate new retail deliveries will continue to be limited. Going forward, new retail product will come
  not only from new shopping centers, but increasingly from mixed-use development in the market. Additionally, property
  renovations will be an avenue of adding high quality product with the continued demand and limited development pipeline.
- **Employment** We anticipate job growth of around 1.9%, or 24,600 jobs, in San Diego County over the year. Look for sectors like construction, administrative & support, and transportation & utilities to lead the way for employment gains in 2015.
- Lease Rates Expect average asking rates to increase by another 3% to 5% over the next four quarters.
- · Vacancy We anticipate the vacancy rate to remain stable with much of the occupancy gains already captured.

#### **OVERVIEW**

|                           | 3Q15      | 2015      | 3Q14      | % of Change vs. 3Q14 |
