CAREER SUMMARY

Stefan Rogers is a California licensed commercial real estate broker, Senior Vice President, and Partner at Voit Real Estate Services, one of Southern California's leading privately owned commercial real estate services firms.

His areas of expertise include strategic commercial real estate consulting, owner-user and tenant representation, development, landlord advisory, leasing, and investment sales throughout Southern California.

With more than 25 years of commercial real estate experience across the United Kingdom and United States, Stefan has developed a reputation for combining institutional-level expertise with a highly hands-on and entrepreneurial approach. His experience spans office, industrial, retail, medical, automotive, and lifestyle-oriented commercial properties.

Prior to joining Voit, Stefan began his career in the United Kingdom with Cushman & Wakefield, where he specialized in the representation of corporate clients globally in appraisal, asset management, leasing, acquisitions, dispositions, and investment advisory assignments. Over the course of his career, Stefan has participated in hundreds of lease and sale transactions globally totaling in excess of \$1 billion in aggregate consideration.

Today, Stefan's practice is increasingly relationship-driven, encompassing strategic tenant representation, small-to-mid-size owner-user and investment sales, consulting, and value-add development opportunities, with a focus on identifying hidden value, structuring advantageous transactions, and maximizing outcomes through positioning and negotiation.

EDUCATION

Stefan holds a BSc (Hons) degree in Real Estate Management from Oxford Brookes University, England, and earned the professional designation of the Royal Institution of Chartered Surveyors (RICS), one of the world's leading professional organizations for real estate professionals.
